Keiron Garro Matamoros

Entry-Level Programmer

keirongarro@gmail.com   +(506) 6252-5008   Alajuela, CR   LinkedIn

Third-year student of Informatics and Multimedia Technology with advanced programming knowledge in React, Astro, JavaScript, SQL and AWS. I have a strong command of the English language. Always with a positive attitude and motivation to constantly learn and take on new challenges.

WORK EXPERIENCE

Freelance – Front End Development

February 2023 – Current

- Implemented AWS Amplify as the host and Route 53 for the domain for an Astro/React project, which served as a landing page for a real client.
- Collaborated closely with clients to understand requirements and deliver solutions aligned with their business objectives.
- Applied SEO best practices, including meta tags, structured data, and optimized content, to enhance search engine visibility

PROJECTS

To do App – Creator

- Created a responsive and mobile-first web application designed to streamline task management for users.
- Developed and integrated an API to facilitate seamless communication between the front-end and database, ensuring data integrity and security.
- Designed and implemented database logic and relationships to optimize data management and user experience.
